Shri Saurabh Gaur
Joint Secretary
Ministry of Electronics & IT

Subject: Pending certification of BIS applications

Respected Sir,

Greetings from MAIT!

We acknowledge the Ministry for Electronics and Information Technology for enabling ease of doing business and for extending its guidance & support from time to time to the industry during compliance.

Sir, our members have been facing the challenge of getting timely BIS certifications and we would like to draw your kind attention towards this urgent issue. This challenge has been there for quite some time and the industry is struggling to get the certifications.

The lead-time in the processing of applications for new licenses, renewal of a license and inclusion of new varieties in the existing license is more than 30 days now. The industry is extremely concerned as a few of the applications are almost as old as two months, without a clearance.

Since the release of these products into the Indian market is subject to approval from BIS, we request you to please look into the matter for speedy clearance of the pending BIS application cases. MeitY has always been considerate towards the challenges of the industry and this is a persistent issue we request your intervention into.

Please find attached the details of pending cases for your kind perusal.

In order to meet the “time to market” & for Ease of Doing Business (EODB) in the country, we sincerely look forward to your kind consideration to our above stated request.

With regards,

George Paul
Chief Executive Officer

CC: Shri Pramod Kumar Tiwari, Director General, Bureau of Indian Standards
CC: Ms. Asha Nangia, Sr. Director, Ministry of Electronics & IT
