**Subject: Industry recommendations for PLI 2.0**

Respected Sir,

***Greetings from MAIT!***

Thank you for giving appointment for the **MAIT delegation tomorrow at your office at 4.00 PM.**

I am writing to you on behalf of MAIT, India's apex ICT Industry body. Founded in 1982, MAIT represents India's IT Hardware, Telecom manufacturers, Recyclers, PROs, Testing Laboratories & Affiliated Associations. Further to our meeting last month when a MAIT delegation had briefly discussed the need for a revised Production Linked Incentive (PLI) scheme for electronic hardware manufacturing, the Industry has evolved a comprehensive and forward-looking model. The new model was evolved after intense industry consultations with present and prospective PLI applicants in the Electronics manufacturing space. It factors the need for achieving scale in manufacturing & sustained support to the Industry and attempts to strike a balance by accommodating aspirations of manufacturers of all sizes. **I am attaching the recommended PLI model and a calculation sheet which elucidates its financial implications for your consideration.**

We sincerely thank you for your patience in giving us time to evolve this after intense Industry-wide consultations and **look forward to meeting with you tomorrow to explain the rationale with which this has been prepared.** MAIT once again acknowledges your support to the Industry in attempting to realise Government of India's vision of "US\$300 bn Sustainable Electronics Manufacturing and Exports by 2026".

With regards,

George Paul  
CEO
